

CONRAD PHONICS

Reading skills your child can actually use, with progress you can actually see
讓孩子真正學會閱讀，學習進度清晰可見

Why Conrad Phonics •

為何選擇 Conrad Phonics ?

- ★ **Most phonics courses in Hong Kong use UK programmes designed for native English-speaking children.**
香港大部分拼音課程沿用為英語母語兒童設計的英國教材，未必切合本地孩子的需要。
- ★ **The common result: after a year, children can name letter sounds but still cannot read a new word on their own.**
常見結果是：學了一年，孩子能讀出字母發音，卻仍無法自行拼讀生字。
- ★ **Conrad Phonics was built in-house by our teaching team, for one specific learner: the Hong Kong student learning English as a second language.**
Conrad Phonics 由本中心教學團隊自主研發，專為以英語為第二語言的香港學生而設。

What Makes It Work •

課程特色

- ★ **Blending from Lesson 1: your child combines sounds to read real words from the very first lesson.**
第一課已開始拼讀：孩子由第一堂起便學習組合發音，讀出真實單字。
- ★ **Only decodable words: every word is built from sounds already taught, so your child reads with confidence, never guessing.**
所有單字均由已學過的發音組成，孩子靠實力閱讀，而非靠猜測。
- ★ **Review built into every lesson, plus full review lessons at Lesson 6 and Lesson 12 of every stage.**
每課均設溫習環節，每階段第 6 課及第 12 課更為全面複習課，所學內容不會學完即忘。
- ★ **An exam at the end of every stage: your child only moves forward after true mastery, and you receive clear evidence of progress.**
每階段結尾設有考核，孩子完全掌握後才會升級，家長清楚看見學習成果。
- ★ **Designed for second-language learners: concrete vocabulary with picture support, target sounds highlighted in red, and the same clean layout in every lesson.**
專為第二語言學習者設計：詞彙具體並配有圖像，目標發音以紅色標示，每課版面統一清晰，孩子專注學習發音。

A Clear Path to Reading •

清晰的學習路徑

- ★ **The full course has 6 stages, with 12 lessons in each stage.**
全課程共 6 個階段，每階段 12 課。
- ★ **Stage 1 alone takes your child from zero to reading full words with all 26 letters.**
單是第一階段，孩子已可由零開始，學畢 26 個字母並拼讀完整單字。
- ★ **At any point, you will know exactly which stage your child is on, what they have mastered, and what comes next.**
家長隨時清楚孩子身處的階段、已掌握的內容，以及下一步的學習目標。

Book an assessment and find out exactly which stage your child should start from.

立即預約拼音評估，了解孩子的拼音水平，以及最適合由哪個階段開始。
